

Bradford Grammar School

Pupil ICT Acceptable Use Agreement

**This policy applies to the Junior School and is published to parents, pupils and employees.
Revised 20 September 2017**

Vision Statement:

“Bradford Grammar School aspires to develop well rounded young people who confidently and safely navigate the digital world and promotes innovative and effective pedagogy through the use of technology. The school will provide outstanding infrastructure, support and training to all members of our community for the achievement of our vision.”

Bradford Grammar School understands that the considered use of technology for teaching and learning has great advantages. It can allow work to be completed more efficiently by pupils, broaden the kinds of tasks undertaken, enrich and enliven lessons and provide opportunities for creativity, differentiation and stretch.

The School expects that all pupils will behave with courtesy and sensitivity to others at all times including when using technology. The School takes all reasonable steps to ensure safe internet access at all times, but pupils must also understand how to use the internet and social media safely and responsibly. Antisocial and potentially harmful behaviour of any kind through the misuse of technology is unacceptable and will be dealt with according to the School's Behaviour Policy. This applies to activity off site as well as at school if it has a negative impact on members of our School community.

All pupils are educated in the safe and discerning use of technology through assemblies, form tutor time, the Personal Development programme, external speakers and through schoolwork which provides opportunities for the use of computers and mobile devices. Personal mobile devices are permitted at School provided they are used in accordance with this Acceptable Use Agreement.

Excessive amounts of screen time are however discouraged and pupils must follow the instructions of BGS staff about when it is appropriate to use a mobile device. A healthy and balanced engagement with technology and digital space is fostered at the School as part of a well-rounded education.

This ICT Acceptable Use Agreement for pupils is intended to ensure that young people will be responsible users of the internet and will stay safe while using digital technologies.

All pupils at Bradford Grammar School are required to read, understand and sign the School's Pupil ICT Acceptable Use Agreement when they first join the School and to re-read and re-sign the latest version of this agreement at the beginning of each academic year.
